VISION & MISSION

VISION

To be a global leader in the field of open, distance and online education promoting life-long learning using cutting-edge technology across geographical regions.

MISSION

Our mission is to be an internationally acclaimed premier institution of open, distance, and online education to influence the direction of learning in the future and make a real impact in the fields of research and education. To empower the learners by providing 21st-century skill sets through a wide array of professional, academic, and skill-based courses. To enable a dynamic learning behaviour amongst learners across society reaching the masses at their doorstep. Our commitment towards excellence and inclusivity drives us to equip our lifelong learners to thrive in a global landscape shaping a bright future.

PREAMBLE

In 2022, the University of Delhi established the Department of Distance and Continuing Education (DDCE), Faculty of Open Learning, and the Open Learning Development Centre (OLDC) under the auspices of the Campus of Open Learning (COL). The DDCE encompasses a variety of disciplines, offering distance learning programs in fields such as Commerce, Economics, Education, English, Environmental Science, History, Hindi, Mathematics, Political Science, Punjabi, Sanskrit, Urdu, Management, Financial Studies, Library and Information Science, Computer Science, and Psychology.

The School of Open Learning under the aegis of COL, established in 1962, initially provided conventional programs in humanities and commerce. Its first batch had around 900 students. Over the years, it has expanded significantly and now serves over four lakh students across various disciplines. This growth has been paralleled by the establishment of regional centers: the South Study Centre at Moti Bagh (1990), the West Regional Centre at Keshav Puram (2007), and an upcoming center at Tahirpur, East Delhi. In 2022, the DDCE launched six new professional courses, including MBA, Master of Library and Information Sciences (MLISc), B.A. (Hons.) Economics, Bachelor of Management Studies, Bachelor of Business Administration (FIA), and Bachelor of Library and Information Sciences (BLISc). The B.A. (Hons.) Psychology program was introduced in 2023.

The School of Open Learning provides higher education opportunities particularly for those who are employed or unable to attend regular college due to various constraints. The flexible distance education mode is designed to help students achieve higher education and vocational skills through well-structured course materials provided at admission, supplemented with video lectures and academic counseling sessions at various Learning Support Centres. Experienced faculty members are available for mentoring and counseling at the main campus. Admission criteria and examinations adhere to the norms of the University of Delhi, which confers degrees upon DDCE students as it does for those in its constituent colleges. Beginning in the 2022-23 academic session, the University of Delhi adopted the National Education Policy (NEP) 2020 and introduced the Undergraduate Curriculum Framework (UGCF) 2022.

VICE-CHANCELLOR'S MESSAGE

Greetings to all!

It gives me immense pleasure to extend a warm welcome to all of you for the upcoming academic year 2024-25 at the Department of Distance & Continuing Education (DDCE), School of Open Learning (SOL), under the auspices of the Campus of Open Learning, University of Delhi. The Department has continuously demonstrated excellence in addressing the educational needs of students nationwide, providing affordable and accessible education. Through its unwavering dedication to academic inclusivity, it has greatly influenced the lives of students from various cultural and social backgrounds.

The year 2022 marked a significant renaissance in Distance Education and Open Learning with the launch of six new job-oriented professional programs. These programs were meticulously designed to address various global challenges through the holistic development of students, preparing them to become competent professionals, service providers, policymakers, managers, librarians, and entrepreneurs. In today's interconnected world, it is imperative for individuals to be global citizens, and I am confident that these programs will harness the nation's human resources to produce future leaders and nation-builders.

I warmly welcome the incoming batch to this esteemed institution and wish them success in their academic and professional endeavors. Best wishes to the Department for a promising new beginning. I am assured of the enthusiastic participation of all stakeholders at the Department of Distance & Continuing Education, School of Open Learning, under the aegis of the Campus of Open Learning, University of Delhi.

Best Wishes!!

Prof. Yogesh Singh

DIRECTOR'S MESSAGE

Dear Students,

I warmly welcome you to the Department of Distance & Continuing Education (DDCE), School of Open Learning (SOL), under the aegis of the Campus of Open Learning (COL), University of Delhi. Established in 1962, our institution has a distinguished 62-year history as a premier provider of higher education in the distance mode. The DDCE/ SOL embodies a culture of innovation and diligence, with a steadfast commitment to achieving its institutional goals. For decades, we have enabled thousands of individuals from economically and socially disadvantaged backgrounds to access higher education, contributing significantly to the "Education for All" initiative.

Traditionally, the DDCE/ SOL has offered programs in Commerce and Humanities. In the academic year 2022-2023, we expanded our offerings with six new programs in Management and Library and Information Science. These need-based programs are designed to be professionally and vocationally oriented, aligning with the guidelines of NEP 2020. Our curriculum meets the standards of leading universities in India, and these flexible programs enhance employment prospects with a student-friendly fee structure. We emphasize hands-on experience, supported by self-paced learning, updated study materials, and Academic Counselling Sessions (PCP classes). The strategic use of ICT and multimedia technologies ensures we meet the educational needs of students nationwide.

The Department is dedicated to democratizing higher education by inspiring and developing students into committed professionals and entrepreneurs. Our expanding higher education system emphasizes skill development to enhance employability, equipping students with essential analytical and soft skills. Through a commitment to academic, professional, and holistic excellence, we strive to inspire, nurture, and guide our students to think progressively, adopt value-based perspectives, and uphold ethical standards. This program will be a crucial steppingstone in your personal, academic, and professional growth. We wish you great success and numerous milestones in your future endeavors. Best wishes for your health, happiness, and a prosperous future with us.

Best Wishes!!

Prof. Payal Mago

PRINCIPAL'S MESSAGE

Dear Aspiring Students,

I am delighted to welcome you to the School of Open Learning (SOL), under the aegis of the Campus of Open Learning, University of Delhi. Established as a pioneering institution, it has made a significant mark in the field of Open and Distance Education in India. Since its inception, the SOL has been unwavering in its commitment to excellence in distance learning, providing accessible education to a diverse student body.

The SOL is renowned for its exceptional learning programs tailored to meet the demands of the twenty-first century. It has been instrumental in fulfilling the educational aspirations of economically and socially disadvantaged students who face barriers to accessing higher education. Over the years, the SOL has grown significantly, offering high-quality educational opportunities and focusing on character building. It stands as a beacon of hope, promoting moral values, community development, and equitable access to education amidst evolving economic, social, and cultural landscapes.

Despite the challenges posed by the recent academic year, which was predominantly online, the SOL has shown resilience and adaptability. We have ensured that online teaching and learning remain effective and accessible, conducting academic and cultural events, as well as online examinations (OBE), with great success. Through continuous support from faculty, staff, and students, we have turned challenges into opportunities. Initiatives such as updated study materials, online services, and fee concessions for disadvantaged students highlight our commitment to a student-friendly approach. We hope your association with the School of Open Learning will be a cherished and enriching experience.

Best Wishes!!

Undergraduate Curriculum Framework (UGCF)

The UGCF 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education, as enshrined in the National Education Policy (NEP) 2020 and endeavours to synchronize these cornerstones, while charting the road ahead for the state of higher education in the country.

The University of Delhi, a premier institute of teaching, learning, and research in higher education, acclaimed nationally and internationally, aims to acquire excellence in education and contribute to nation-building in the twenty-first century. Being a central University, mandated to act as the torch bearer in expanding the horizons of human resource development - through the expansion of higher education - it has always strived for constructive and meaningful innovation: a regular feature in its undergraduate curriculum development over the years. This is attested to by the periodic revision of its undergraduate curricular framework over the decades, especially in the last two decades. The University aims to keep pace with global trends in higher education in the new millennium. Realizing the critical importance of education in enriching the youth of our nation; the focus is on skill development, through innovative and practical oriented teaching-learning.

The University is constantly exploring the possibility of further restructuring and refining its undergraduate curriculum framework, in keeping with the objectives and underlying philosophy of the NEP 2020. In 2021, around 65 per cent of Indians were under 35 years of age - giving the country a distinct demographic advantage. A skilled workforce can contribute immensely to national growth in the digital age.

The UGCF 2022, not only embodies the heart and soul of the NEP 2020 in letter and spirit but outlines a teaching-learning framework that aims to attract young minds towards research, innovation, apprenticeship, social outreach, and entrepreneurship, while learning and gaining knowledge in the truly charged academic environs of the University and its constituent colleges. The Department of Distance and Continuing Education/ School of Open Learning has also adopted UGCF 2022 in all its undergraduate courses.

Courses and Credits

Under the National Education Policy (NEP), the UGCF prescribes the following types of Courses for the students to study through eight semesters in four years with options of exit after completion of a year of study. Each of these courses is assigned specific credits wherein a credit is defined as the hour(s) per week devoted for lecture/practical in the particular course. The number of credits to be earned per semester is 22 which amounts to a total of 176 credits at the end of eight semesters in four years of study. These courses along with distribution of credits are given below:

Discipline Specific Core (DSC) is the core credit course of a discipline. The rigour of the DSC will allow students to develop critical thinking skills in their chosen field of study.

Discipline Specific Elective (DSE) is offered from the 3rd Semester onwards. This course is from the chosen discipline, elevating their understanding and expertise in the chosen field.

Generic Elective (GE) is a pool of courses that are meant to provide multidisciplinary or interdisciplinary education to students. It is offered by various disciplines of study (excluding the GEs offered by the parent discipline), broadening the horizon of the student's knowledge.

All DSC, DSE and GE courses are assigned 4 credits each.

Ability Enhancement Course (AEC) is offered in the first four semesters. These courses are based on the content that leads to knowledge enhancement through various areas of study. The areas of study are Language and Literature, and Environmental Science and Sustainable Development.

IL is a pool of Indian Languages in the 8th Schedule of the Constitution

Skill Enhancement Course (SEC) is offered in the first six semesters. It envisages imparting life skills as well as technical and professional skills, transmogrifying them into job-ready individuals.

IAPC refers to Internship/Apprenticeship/Project/Community Outreach

Value Addition Course (VAC) is offered in the first six semesters. These courses strive to inculcate ethics, culture, Indian Knowledge systems, constitutional values, soft skills, sports, physical education, and similar values in students, which will help in the holistic development of students.

All AEC, SEC and VAC courses are assigned 2 credits each.

UGCFC provides students an opportunity to acquire Certificate/Diploma/Honours/Major/Minor/ in any discipline depending on the credits earned by the student under multiple exit option.

- **Undergraduate Certificate:** Exit after completing One Year of study with total of 44 credits in the field of Study/Discipline.
- **Undergraduate Diploma:** Exit after completing Two Years with total 88 credits in the field of Study/Discipline.
- **Bachelor of (field of Multidisciplinary courses of Study):** Exit after completing Three Years with total 132 credits.
- **Honours in Single Discipline:** Exit after completing Three Years with total 132 credits.
- Should students go on to pursue Four years Honours degree (with total 176 credits), Major and Minor shall be awarded to them on fulfilment of certain conditions.

How to choose your Programme/Course

Under UGCFC 2022 students can choose a Programme of study under Arts or Commerce streams subject to the exit options stated above and given the eligibility criteria for admission into the programme. Please note that to pursue a single core discipline which leads to an Honours Degree in that discipline after completion of 3 years of study with six semesters, a student has to take 3 discipline courses in each semester. Besides this, the student has to study one course each from GEC, AEC, SEC and VAC from their respective pools. If the student wants to pursue undergraduate degree with two Core disciplines which is equivalent to B.A.(Prog), then he/she has to follow the steps given below:

1. First, choose two discipline courses offered by two different departments. Denote these department/course as A and B where 'A' stands for the course in which the student may do a major during the academic journey. Accordingly, course 'B' will become his/her non-major or minor course. For example, if a student wants to pursue a combination of Economics and Political Science where economics is major then the student will study two courses from economics and one from political science.
2. Second, the student will be studying two courses under 'A' denoted as 'A' and 'A1' for 1st Semester and 'A2' for 2nd Semester and so on given on the page 11 and one course under 'B' which is

denoted as 'B1' and 'B2' on the page 11.

3. In this manner, under B.A. (Prog.) with two core disciplines, a student will study three discipline papers along with one course each from GEC, AEC, SEC and VAC from their respective pools.
 4. For B.Com. a student will study three courses from the commerce discipline. In addition, student will study one course each from GEC, AEC, SEC and VAC from their respective pools.
- Note that GEC, AEC, SEC and VAC are compulsory courses with internal choice while students have an option to choose their discipline courses (DSC).

Attention Regarding GE Course –

NOTIFICATION

[E.C Resolution No. 52-38 dated 08.12.2022]

The range of Generic Electives (GEs) offered to certain category of students of B.A./B.Com. Programme under UGCF 2022 have been revised keeping in view their multidisciplinary nature and interest of students as under:

- (i) Students of B.A. program with two languages as the core disciplines be offered the open pool of Generic Electives (and not restrict them to choose only the GE-Languages)
- (ii) Students of B.A. program with one language as the core disciplines be offered to study only one GE-language (which will be two courses of the same language that may be studied as GE-1 and GE-3 or GE-2 and GE-4). The other GEs shall be from the open pool of GEs.
- (iii) B.A./B.Com. Programme students who have never studied any Modern Indian Language (MIL) up to 8th Class shall be offered the open pool of GEs.

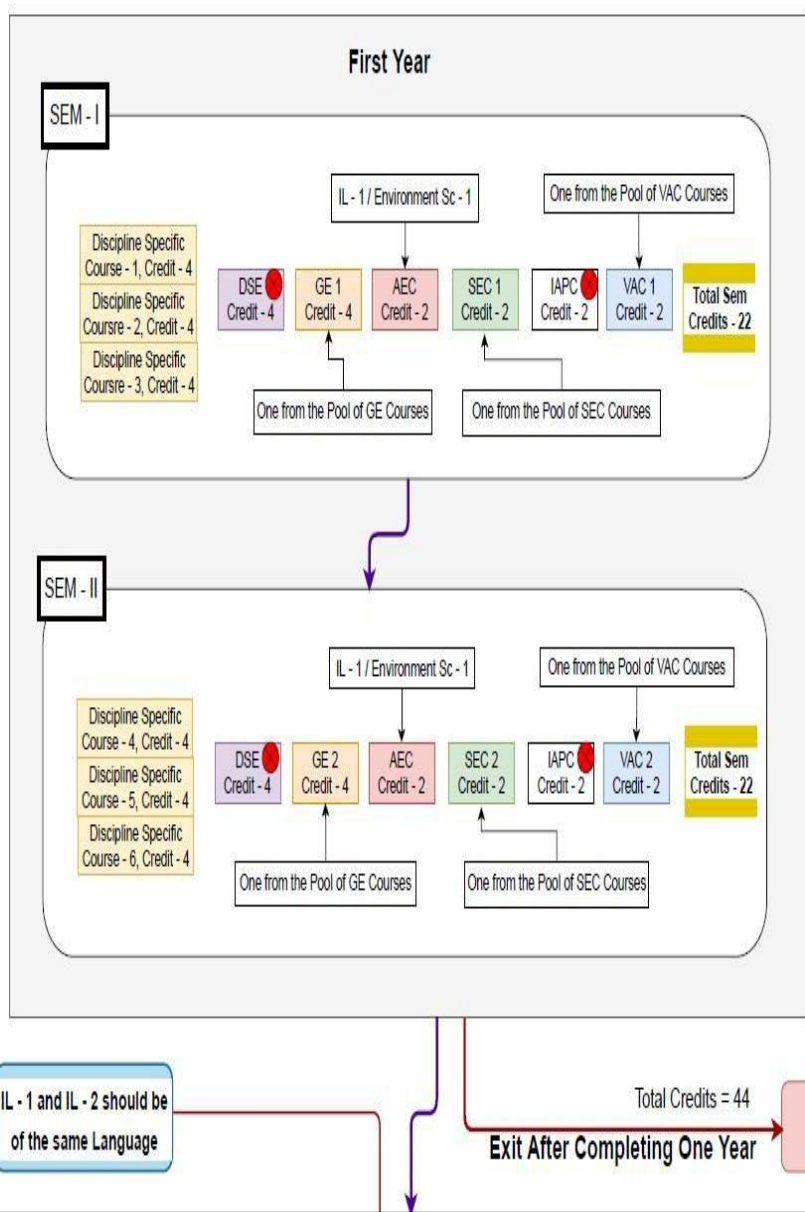

For Structure of UGCF please refer to the chart provided below:

Structure of UG Single Core Discipline Program

DSC: Discipline Specific Course
DSE: Discipline Specific Electives
GE: General Electives
AEC: Ability Enhancement Course
IL - Pool of Indian Languages in the 8th schedule of the Constitution

SEC: Skill Enhancement Course
IAPC: Internship/Apprenticeship / Project/ Community Outreach
VAC: Value Addition Course
● : Not Applicable

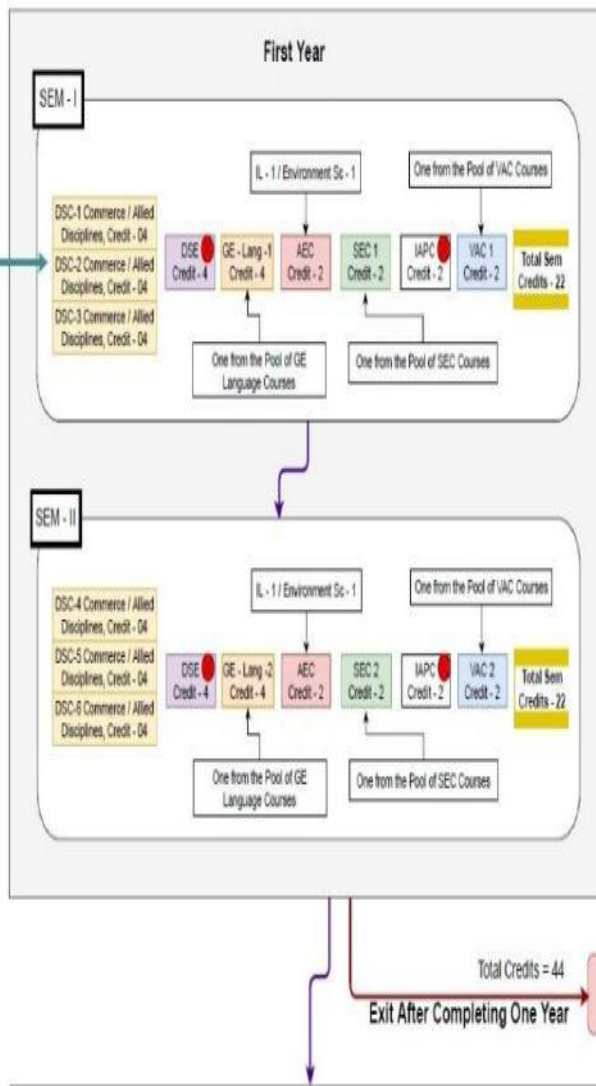

Structure of B.Com (Program)

DSC: Discipline Specific Course
DSE: Discipline Specific Electives
GE: General Electives
AEC: Ability Enhancement Course
IL: Pool of Indian Languages in the 8th schedule of the Constitution

SEC: Skill Enhancement Course
IAPC: Internship/Apprenticeship / Project/ Community Outreach
VAC: Value Addition Course
●: Not Applicable

In B.Com students shall study DSCs of Commerce and Allied Disciplines such as Economics, Business Economics, Management etc.

GE-1, GE-3 should be of one Language
 GE - 2, GE - 4 should be of Language other than studied in GE-1 and GE-3.
 At least one of the language should be Indian Language.

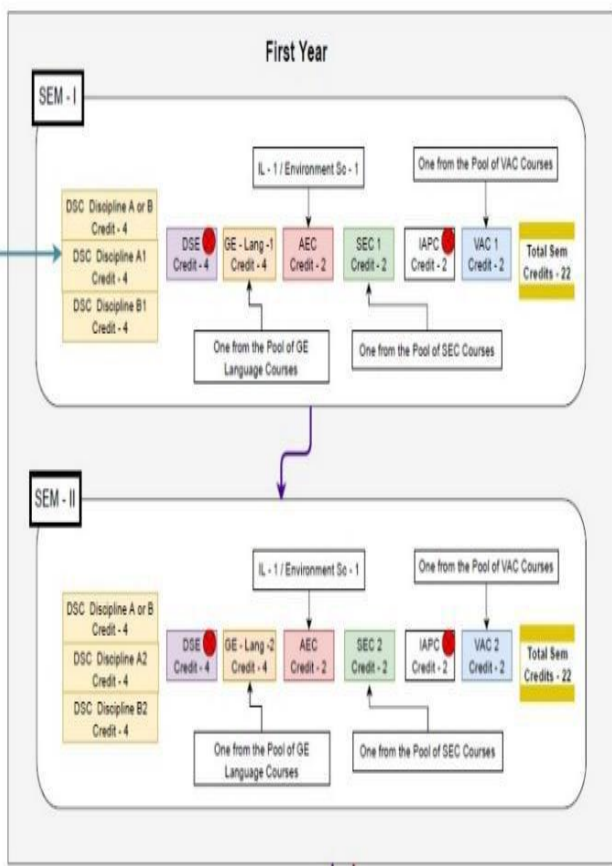

Structure of UG Program Two core Disciplines Applicable to all B.A.(Programs)

DSC: Discipline Specific Course
DSE: Discipline Specific Electives
GE: General Electives
AEC: Ability Enhancement Course
IL - Pool of Indian Languages in the 8th schedule of the Constitution

SEC: Skill Enhancement Course

Department of BMS

About the Department of Management Studies

The Department of Management Studies (DMS) at the School of Open Learning (SOL), University of Delhi, has been established with the aim of providing quality management education through distance learning. The department has been a pioneer in enabling working professionals, entrepreneurs, and individuals seeking career growth to pursue higher education in the field of management.

The department recognizes the evolving needs of the industry and equips its students with the necessary knowledge, skills, and competencies to succeed in the dynamic business world. The department offers two programmes, an undergraduate programme namely the Bachelor of Management Studies (BMS), and a postgraduate programme i.e., the Master of Business Administration (MBA) programme.

To ensure the overall development of students, the department organizes guest lectures featuring industry experts to enable students to gain insights from seasoned professionals. These events also provide networking opportunities, allowing students to connect with professionals and expand their professional circles.

In conclusion, the Department of Management Studies at the DDCE, SOL/COL, University of Delhi, offers excellent opportunities for individuals seeking management education through distance learning. With its comprehensive programs, learner-centric approach, and dedicated faculty, DMS SOL prepares students to excel in the competitive business landscape and make meaningful contributions to the industry.

About the Programme

Bachelor of Management Studies (BMS) is an undergraduate program for management studies. It enables students to gain insight into management studies and acquaint them with the world of business. The Programme allows students to obtain the knowledge and skills needed to assume management positions in a wide range of organizations. The first two years of graduation provide the students with a solid foundation, which helps them to know and identify their interest in the specialization. From the third semester onwards, students have the choice of selecting their specialization from the areas of finance, marketing, human resource, and the global business environment.

Course Suitability

To ensure that this course secures the maximum benefit for students and that they become skilled professionals, our institute encourages students with a strong passion for business and management concepts to apply.

The papers offered by the BMS Programme range from "Introduction to Business Analytics" to "Statistics for Business Decisions" from "Quantitative Techniques" to all the important branches of Management like Marketing, Organizational Behaviour, and others requiring students who are comfortable with technology and have the desire to stay up-to-date with the latest advancements in business management software and tools.

That being said, it's important to note that a students' success is not solely based on their academic or technical abilities but also on their motivation, dedication, and willingness to learn and apply new concepts. Therefore, a student with a passion for business and a strong work ethic can thrive in a BMS program, even if he/she has yet to gain extensive experience in the field.

Career Opportunities

The key to success in any career is to develop a strong set of skills in areas such as leadership, communication, problem-solving, and strategic thinking. Some of the career opportunities available to graduates of this program are:

1. Marketing Manager
2. Human Resource Manager
3. Operations Manager
4. Financial Analyst
5. Business Analyst
6. Project Manager
7. Venturing into Entrepreneurship
8. Business Consultant

Other career opportunities for BMS graduates include management consultant, business development manager, and supply chain manager.

Department of English

The Department of English is one of the oldest departments at the School of Open Learning. The department has experienced faculty with specialization in various facets of literary studies. The faculty is responsive and is always available for consultations and guidance, as and when needed by the students. The Department offers papers for the B.A. (Hons) English Programme. and various DSE, GE, GE (Language), SEC papers for other Undergraduate Programmes. A short description of the B.A (Hons) English course is given below. This is followed by a short description of the papers offered for other Undergraduate Programmes.

➤ B.A. (Hons) English

This is a prestigious undergraduate course offered by Delhi University. It offers a foundational understanding of the domain of literature and culture in its broadest sense. You will be engaging with various genres like Poetry, Fiction, Drama, etc. This course will also equip you with specific skill sets that are necessary to analyse and critique literary and cultural texts. You will explore ways in which literature reflects, presents, or even influences the changing socio-cultural landscape in any given society. However, this is not a professional course that lands you a job after graduation. Job opportunities would depend, largely, on the skill sets that you develop during your graduation and other additional qualifications that you acquire after you graduate. Generally, students of literature can find openings in the areas of Journalism, Editing/ Proof Reading, Book Publishing, Teaching, etc. Further, other areas, like Law, Civil Services, Advertising, etc., are open to you Subject to their entry requirements. Please keep in mind that this Programme demands a certain amount of familiarity with literature in general, good reading habits, and a reasonable command over the English language.

➤ What is Expected of You

The B.A. (Hons) English course is a demanding course, and you are required to have some skills to negotiate and do well in this course. It is expected that you already have reasonably good language skills and some familiarity with English literature in general.

This course entails extensive reading and interpretation of literary texts as well as secondary material. Hence students with high achievement levels in English language and good reading habits are likely to do well. You should note that the self-learning materials provided by the college are not textbooks and should not be used as a substitute for textbooks. They should be used only after you have read the primary textbooks prescribed for you in the syllabus.

The self-learning material is uploaded on the website www.sol.du.ac.in.

Before you take a final decision about joining the course, please do spend some time going through the prescribed textbooks and self-learning material. It will give you an idea of the kind of demands that the course will make on you. Hopefully, this will clarify some basic issues regarding the course and help you in making an informed choice.

Department of Political Science

The Department of Political Science accommodates the maximum number of students. It offers three Courses, i.e., BA (Prog.), BA (Hons.) and MA. During the course work we make the students understand the foundational values of political science, and its conceptual debates and engage students to use them in day-to-day activities. These courses will equip students with specific skill sets necessary to analyze various aspects of public administration, rules, regulations, and governance issues. The department imparts education and training in all the varied sub-disciplines of Political Science including Political Theory, Indian Political Thought, International Relations, Comparative Politics, Indian Politics and Public Administration.

Vision:

The main objective of the department is to significantly transform the way political science is seen and taught as a subject in India. Now we are especially emphasizing entrepreneurial skills, diversity, and adaptability in the changing social realities. We are devoted to delivering a good academic atmosphere and equipping students to become civic leaders who intellectually and socially uphold the principles of social and gender justice and public service intellectually and socially. We enable our students to apply theoretical knowledge for understanding the practical domains of Indian politics, international relations, and public policy.

The B.A. (Hons) Political Science course is a popular course at SOL, and you are required to have some skills to excel and complete this course. It is expected that you already have a reasonably good command over your writing and analyzing skills. Because writing is the most important skill to acquire during your coursework. We will request you opt for creative writing skills both in Hindi and English. It will help you to get new job opportunities in print and TV media. Our students are also, capable to give Public Service Commission Examinations across India (UPSC, PSC and SSC). They have a bright future working with Non-Governmental Organizations, and research institutes, going for judicial jobs qualifying LLB and LLM.

Core Values:

Along with communicating knowledge of Political Science, we are enthusiastic to develop new knowledge in the field through dynamic research, and scholastic collaboration with industries and research institutions. Pledged to cultivate political values to boost democratic and participative values. We also encourage students to indulge in entrepreneurial activities to serve society.

Career Opportunities

Job opportunities are available in media, civil services, academics and research and social sector etc.

Department of Psychology

About the Department:

The Department of Psychology, DDCE, SOL, COL, University of Delhi offers students a holistic education in the field of psychology, with an emphasis on creating a strong theoretical basis, critical thinking, research skills, and practical experience.

Learners are given the opportunity to advance at their own pace and take a multidisciplinary approach to their education thanks to the flexibility offered by the programme. As a result, it is a programme that is centred on the student and has built-in provisions for adaptability, mobility, and employability.

We offer B.A. (Hons.) Psychology and B.A. Programme with Psychology.

About the Honours Programme:

The undergraduate program in Psychology at DDCE, Campus of Open Learning provides students with a strong foundation in the principles of psychology with a focus on scientific inquiry, critical thinking, and ethical practice.

The Bachelor of Arts Honours programme in Psychology is intended to provide the learner with a solid grounding in the fundamentals, concepts, processes, and applications of psychological principles in a variety of settings. The programme also includes a variety of courses that are interdisciplinary in nature and that enhance students' abilities. These courses give students the opportunity to investigate topics in areas other than the scientific field of psychology.

The diverse curriculum covers various subfields of the discipline, including courses in developmental psychology, abnormal psychology, social psychology, statistics, organisational psychology, cognitive psychology and many more. The students are trained in a wide range of courses as per the curriculum including core papers, elective papers, value addition and skill enhancement papers to encourage the overall growth and development of the students. In addition, students are encouraged to participate in research projects and internships to gain practical experience in the field.

Why should you join this course?

Psychology is the scientific study of human behaviour and mental processes, and its purpose is to provide a better understanding of how people behave. Through the study of psychology, one can obtain a more profound comprehension of the reasons behind why people think, feel, and behave in the ways that they do.

This course prepares students for a variety of careers in fields such as healthcare, education, social services, and business. Graduates from this field are well-prepared for professions in research, counselling, and therapy, as well as human resources, marketing, and education. They are also well-prepared for future studies in psychology or associated fields.

Psychology classes can help you learn strategies for conflict resolution, effective communication skills, and how to create positive connections with other people. It helps you to improve your ability to communicate and interact with others. Studying psychology can also help individuals better understand

and manage their own thoughts, feelings, and behaviours, which can lead to enhanced personal well-being as a result of the individual's increased ability to control these aspects of themselves.

To pursue a career in psychology:

If you are interested in becoming a psychologist, therapist, counsellor, or another mental health professional, enrolling in a psychology course is an essential step towards attaining your career goals.

1. **Clinical Psychologist:** Psychologists who specialise in clinical practice work directly with patients to identify and treat a variety of mental health conditions utilising a wide range of different approaches to psychotherapy.
2. **Counselling Psychologists:** They work with individuals or groups to help them improve their mental health and well-being. They typically use talk-therapy and other interventions in their practice. Counselling psychologists are also known as clinical psychologists.
3. **School Psychologists/School Counsellors:** They are professionals that work in schools to assist students in their social, emotional, and intellectual development. They frequently collaborate with both teachers and parents to construct educational conditions that are conducive to student learning.
4. **Industrial-Organizational Psychologists:** These are those who apply the concepts of psychology to workplace settings. They seek to increase employee performance, as well as job satisfaction and the general efficacy of organisations.
5. **Forensic Psychologist:** Psychologists that specialise in forensic work collaborate with other experts in the legal field to assess and treat persons who are involved in the criminal justice system. These individuals include defendants, witnesses, and victims.
6. **Social Work:** A professional who assists individuals and families in overcoming several difficulties, such as issues related to mental health, poverty, and substance misuse.
7. **Human Resources:** Specialist in human resources is responsible for the recruitment, training, and retention of personnel. They frequently apply psychological theories and concepts to devise efficient organisational structures and policies.

These are just some of the many diverse employment options that are open to individuals who have earned degrees in psychology, but there are many more. There are a lot of different possibilities to think about, and the ones you choose will depend on your abilities and interests.

Department of Computer Science

About the Department

The Department of computer science at the School of Open Learning, University of Delhi, stands as the nucleus of innovation and technological advancement. Nestled within one of India's most prestigious universities, it epitomizes academic excellence, fostering a dynamic environment that nurtures the brightest minds in the field. At its core, the department is committed to providing accessible, high-quality education to students from diverse backgrounds, embracing the ethos of inclusivity that defines the School of Open Learning. With a focus on open and distance learning, it extends its reach beyond traditional boundaries, catering to students who seek flexible pathways to academic success.

Led by a team of distinguished faculty members and through its interdisciplinary approach, department of computer science acts as a nurturing environment for the upcoming generation of digital innovators, empowering students with the skills and knowledge necessary to navigate the ever-evolving landscape of computing. At the forefront of research and development, the department fosters groundbreaking discoveries in data analysis, cyber security, artificial intelligence, deep learning, design and analysis of algorithms, data structures, programming languages, data mining, predictive analysis, information technology management, e-business, software engineering, and beyond. Its faculty members, renowned for their expertise and dedication, nurture a culture of problem solving, critical analysis and exploration, inspiring students to push the boundaries of possibility. With state-of-the-art facilities and a vibrant community of learners, this department cultivates a dynamic environment where creativity flourishes, ideas converge, and transformative technologies emerge to shape the future.

The Department of computer science at the School of Open Learning is not just a place of learning; it's a vibrant community where curiosity is celebrated, ideas are exchanged, and boundaries are pushed. Whether pursuing undergraduate or postgraduate studies, students embark on a transformative journey that prepares them for leadership roles in academia, industry, and beyond. With its unwavering commitment to excellence and innovation, the department continues to shape the future of computer science education and make a lasting impact on the world.

B.A. (Prog) with Computer Applications

An interdisciplinary approach is provided by B.A. (Prog) with Computer Applications, which enables students to mix computer science principles with expertise from business, social sciences, or the arts. While concepts in computer science encourage creativity, critical thinking, and problem solving across domains, other topics improve students' communication ability, cultural sensitivity, and global views. Apart from this to the strengthen the programming skills in students, they are provided with hands-on practical classes on weekdays at various regional centers of SOL.

After completing B.A. (Prog) with computer applications students can further pursue masters in areas MCA, MSc (IT), M.A. (Animations), MBA etc. Also, students can work in software development, IT consulting, project management, digital marketing, data analysis, teaching, and other fields after completing their B.A. (Prog) with computer applications.

Major Courses

B.A. (Programme) Computer Applications course structure starts with foundational courses covering programming languages, data structures, data interpretation and visualization. These courses build the core understanding necessary for more advanced topics.

Minor Courses

Minor disciplines offered in combination with computer science are Mathematics and Psychology. Student must choose anyone of these two as per his interest and subjects studied in school prior. Below we provide a brief of both disciplines and their benefit in alignment to computer science.

Mathematics

Studying mathematics as a minor with computer science provides a solid theoretical foundation for algorithms and computational methods, enhancing your ability to design efficient and innovative solutions. Mathematics deepens your understanding of core concepts such as calculus, linear algebra, and discrete mathematics, which are essential for advanced fields like cryptography, machine learning, and data analysis. This combination not only strengthens your analytical and problem-solving skills but also opens opportunities in research and specialized technical roles that require a robust mathematical background.

Psychology

A minor in psychology with computer science offers insights into human behaviour and cognition, which are invaluable for designing user-friendly software and improving human-computer interaction. Understanding psychological principles helps in creating intuitive interfaces, enhancing user experience, and developing technologies that better meet users' needs. Additionally, knowledge of psychology can be beneficial in fields like artificial intelligence and human-centered computing, where modelling human thought processes and behaviours is key. This interdisciplinary approach can lead to more empathetic and effective technology solutions.

Department of History

In the UG Programme with two Core Disciplines of which History is to be one, the student has the option to choose from a list of other Disciplines being offered. Once the students choose their combination, which can be History - Economics, History – Political Science, History- Education, etc., then History would be Discipline A and the other subject would be Discipline B.

As you can see, a Major in History would be offering broad spectrum courses that will span across the world rather than being confined to Indian history.

Besides these papers, the Department of History at SOL is offering a Generic Elective paper titled 'Delhi through the Ages: The Making of its Early Modern History' from a common pool of Generic Electives in the first Semester. This paper is being offered to students of Honours courses in subjects other than History. Similarly in Semester 2, the GE paper offered is: "Delhi through the Ages: From Colonial to Contemporary Times".

The above information will help students to make an informed decision. Should they choose the History Discipline, the Department will guide them and endeavour to make their period of study at SOL as accessible and hassle free as possible.

See the structure of B.A. (Programme) given latter in this chapter for History Major.

Department of Sanskrit

4.18 B.A. Programme with Sanskrit as a Major

About the Department:

The Department of Sanskrit began offering Sanskrit to the B.A. Programme students from 1968 and introduced the Post Graduate Programme in Sanskrit in 1985-86 with the vision of our Oriental

learning, Culture, Philosophy and Vedic and Classical Sanskrit literature. Our Sanskrit Department provides detailed knowledge of Sanskrit Discipline in ancient and modern view of perspective. The Department is always committed to providing the best study material and learning environment so that the skill enhancement of the students can be increased.

About the Programme:

The programme is designed to enable students to learn the Sanskrit language. The course provides a deep knowledge of the Indian culture and apprise students about the rich language system. The course allows the students to go through the topics like Yoga and Ayurveda which not only enhances the knowledge of the students but also make them skilled and competent.

8.3 Open Learning Development Centre (OLDC)

The Open Learning Development Centre (OLDC) is a vibrant hub located within the Campus of Open Learning, Department of Distance and Continuing Education. Its primary focus is to promote open learning approaches and improve educational experiences at the School of Open Learning (SOL) and the University of Delhi. Our mission is to promote and support innovative, research-based, and development-focused projects that enhance the quality and availability of open learning opportunities. This will allow learners to successfully accomplish their academic and professional objectives. The centre prioritizes improving quality procedures that include curriculum evaluation, assessment verification, and ongoing feedback systems. It closely follows developments in accrediting systems and regulatory criteria to ensure that it is in line with the most effective methods in open and online education.

Our state-of-the-art computer lab is the core of our services. It provides students with the opportunity to engage in practical, hands-on learning experiences, guided by skilled instructors. Our labs offer an optimal setting for students to explore, experiment, and develop their skills in programming languages, design utilizing industry-standard software, and digital advertising. Aside from our state-of-the-art facilities, we are now working on creating a powerful learning management system (LMS) that will allow students to access and share educational content in a centralized and easily accessible manner. The students will receive quantifiable and traceable learning outcomes for their courses in a cost-efficient and scalable manner. The website will guarantee the integrity of the test procedure, enabling individuals to showcase their knowledge and talents conveniently from their own residences.

Recently, a variety of skill-based courses have been established at the facility. Our objective is to provide individuals with the necessary resources to thrive in the modern digital landscape and produce income to sustain the ongoing expansion and progress of our institute. Through our diligent monitoring of market trends and industry demands, we have carefully selected and designed a curriculum that is not only pertinent but also resistant to future changes. This curriculum effectively equips students with the necessary expertise and understanding to excel in their chosen sectors, thereby enhancing their employability and fostering a commitment to continuous learning.

As we begin this new phase of expansion and creativity, we welcome people from diverse backgrounds to join us in this process of exploration and change. If you are seeking to enhance your abilities, progress in your profession, or pursue a personal project, the Open Learning Development Centre is available to assist you in attaining your objectives. Let us collectively embrace the future of education and uncover boundless opportunities for personal and professional development.

Educational Technology Lab

The Educational Technology Lab (ET Lab), a division of the Open Learning Development Centre (OLDC), aims to offer valuable technological resources for the creation of creative and efficient digital learning materials. The objective of this project is to develop educational materials for learners in the form of content for massive open online courses (MOOCs), films, and web-based information. The course materials, provided in electronic format, serve as comprehensive resources covering various instructional writing styles. Furthermore, it is specifically designed to provide staff members with essential training and growth opportunities through the execution of Faculty and Staff Development Programs. The ET Lab is equipped with state-of-the-art equipment that features a range of advanced Audio-Video technology in a modern studio. These facilities are essential for participating in programs or creating content for the internet. The laboratory can quickly adapt to various editing setups, live streaming, recording, and other digital forms.

The objective of the ET lab is to develop robust material for the diverse range of courses provided by the School of Open Learning, Centre for Innovative Skill Based Courses and more. The laboratory will generate Open Educational Resources (OERs) to be available for the learners worldwide. It will offer both on-campus and off-campus services to institutions, assisting them in creating educational resources and delivering online courses to students and learners through pedagogically sound methods. The aim of ET Lab is to become self-sustainable by generating revenues and funds by expanding the utilization of the studio and its facilities for institutional and educational purposes outside Campus of Open Learning, to produce interactive learning and instructional materials, such as short films, commercials, and documentaries, to actively engage learners.

The Educational Technology Lab (ET LAB) is actively engaged in promoting the use of Educational Technology at the Institution and also at the National level.

Some of its major activities are:

- Design & Development of Instructional Resources : In the form of videos and webbased.
- Provision and maintenance of AV equipment for classroom teaching.
- Video and computer based instructional packages.
- Organizing training programmes for faculty and professionals across the country.
- Video conferencing for faculty selection interviews and meetings.
- E-Learning and MOOCs (Massive open online courses)

COL Radio

Campus of Open Learning Radio (COL Radio), an innovative and emerging beacon in the realm of education, serves as a digital path to connect with the learners globally. From insightful podcasts to academic updates via news through our in-house YouTube Channel, it ensures the knowledge delivery. Currently at a nascent stage, COL Radio shall synchronize with technological advances, embracing innovation and ensuring a vibrant learning community. This platform aspires to set a significant milestone in Open and Distance Learning Education, seamlessly bridging the gap between learners and institutions through its diverse channels and programs. COL Radio is not just another online radio platform; it's a dynamic hub designed to revolutionize education and empower students in myriad ways. With a diverse range of programming, COL Radio offers both academic and non-academic benefits, catering to the holistic development of students.

Academically, COL Radio serves as a virtual classroom, supplementing traditional learning methods with engaging

educational content. From insightful lectures by esteemed professors to interactive study sessions and educational podcasts, students have access to a wealth of knowledge at their fingertips. Moreover, COL Radio fosters a collaborative learning environment, encouraging students to exchange ideas and engage in intellectual discourse beyond the confines of the physical classroom.

Beyond academics, COL Radio is a catalyst for social impact, shedding light on important issues within the Indian education system and advocating for positive change. Through thought-provoking discussions, interviews with education experts, and student-led initiatives, COL Radio strives to address societal challenges and promote inclusivity and equity in education.

Furthermore, COL Radio provides a platform for students to voice their opinions, share their experiences, and showcase their talents. With dedicated segments for art, culture, sports, and more, COL Radio celebrates the diversity and creativity of the student community, fostering a sense of belonging and pride.

Looking ahead, COL Radio holds immense potential for revenue generation, paving the way for sustainable growth and investment in students and institutional development. By leveraging advertising opportunities, sponsorships, and partnerships, COL Radio aims to not only sustain itself but also create a surplus that can be reinvested in scholarships, infrastructure, and innovative educational initiatives.

In essence, COL Radio is more than just an online radio platform; it's a transformative force driving positive change in education and empowering students to reach their full potential.
