OUR LEARNING METHODOLOGY

Chandigarh University has adopted the latest learning and training tools to deliver our well-designed, industry-oriented programmes to our learners through our user-friendly Learning Management System (LMS), CUVERSE. We are a systematic amalgamation of synchronous interaction and asynchronous interaction where we provide pre-recorded video lectures, live interactive online sessions, webinars by experts, discussion forums for case/discussion/topical queries, peer learning, DSLM, and reference material for learners. Pre-reads of topics in LMS, There are frequent assignments in the form of test your understanding MCQs, case studies, and Q&A for the learner's conceptual grasping with feedback from the course coordinator. We have used the 4 Quadrant approach to effective online learning in the delivery of our course learning material.

CU VERSE allows instantaneously and dexterously setting up individualized learning paths for each of our learners, and it gives us immediate and correct feedback with automated nudges to keep learners on track. Peer learning, virtual classrooms, game-based learning, progress-based rewards, and badges make the courses more engaging. Furthermore, learners can watch pre-recorded (asynchronous) lectures at any time and from any location, which empowers them to learn at their own pace.
